07 What moves your score most

Each one is worked out from your own answers: do this, and this is what that area would read.

Start a steady English routine aiming at fluent professional level. It moves slowly, which is exactly why starting now matters.

European Market Fit

Retailor your CV for the European market. It is the first thing an employer sees, and format alone filters people out.

Employability

Wake up your LinkedIn. European recruiters search there directly, and a quiet profile is invisible to them.

Employability

Set up your AI job-search toolkit: weekly AI research, the workplace tools European teams use, AI-tailored applications, and one tracker you pick yourself.
